2022 VIETTI BARBERA D'ASTI LA CRENA DOCG

JANUARY 2025

Robert Parker
WINE ADVOCATE

This vineyard site has grown from the six original hectares of vines to 10 hectares today thanks to the recent acquisition of a neighboring parcel. With full southern exposures, the vines were planted in three installments, with the oldest planted in 1932. "The Vietti 2022 Barbera d'Asti La Crena offers earthy notes, dark fruit, bitter chocolate and spicy notes that are typical of the Asti area. The Alba area tends to be produce more sweet fruit-driven wines, whereas this wine is savory and root-driven. The vines are planted in loose, sandy soils with little water retention. Because the plants suffer more, you get more structural heft and darkness as a result. It works for me.
