MAY 2024

vinous

The 2023 Rosato Primitivo Torrerose starts off on the right foot: citrus-fruited, floral and redolent of a refreshing ocean breeze on the nose. Once it hits the tongue, it seems to hollow out, leaving an almost palpable gap down the centerline of the palate and finishing with a slight citric tartness. The 2023 is decently enjoyable, but I would prefer more flesh.
