2020 VIETTI FREISA VIVACE LANGHE DOC

91

MAY 2023

JEB DUNNUCK

The 2020 Langhe Freisa Vivace has deliberate effervescence and is fresh with black-berried fruit, rosemary, and a lightly rustic touch of turned soil and pepper. This is the traditional method for producing these wines, as a small bit of CO2 preserved the wines. It is a lovely wine to have alongside salumi, but readers should not be taken aback by its lively mouthfeel. It is also not to be confused with more wild natural wines. Fresh with red berries, black berries, and crunchy red plums, it is drinking beautifully now and will continue to drink well over the next several years.
