JULY 2021

vinous

The 2019 Salice Salentino Passamante blossoms slowly in the glass, leading off with musky dark berries and smoke, and gaining hints of cracked pepper, yellow curry and flowery undergrowth over time. This varietal Negroamaro is soft-textured, balancing bright acids with ripe black fruits and minerals to create a juicy yet pure impression. Notes of plum and lavender linger long as the 2019 tapers off lightly structured and dry.
