ENRICO SERAFINO
Picotener Langhe Nebbiolo 2017

Nebbiolo is known for producing characterful wines with cerebral complexity. Picotener is a sub-variety of Nebbiolo—and rather a diva. So difficult is it to cultivate that it all but disappeared in Italy's Piedmont. The family-run team at Enrico Serafino discovered it growing in a vineyard and after much time and devotion, have created this lovely wine. Laced with red cherry fruit and notes of roses it shows a backbone of warm spice and earth, it is both very soulful and approachable.
