The reduced proportion of Cabernet Sauvignon in the suave 2016 compared to the 2006, 40% compared to 60%, and the concomitant increase of Syrah to 35% from 20%, may explain the wine's appealing texture.

Black pepper notes add balancing spice to this powerhouse. It carries its 15.4% stated alcohol effortlessly. Fresh and youthful, this muscular wine should develop splendidly over the next decade. Its balance and fine texture allow enjoyment now as long as you're a fan of youthful, power-packed wines.
